

CAYSA and LocalReplay have partnered to provide CAYSA teams with top quality team web sites, including unlimited videos, stats, schedules, and photos. Your team does not pay for your site. LocalReplay works with partners like CAYSA and corporate sponsors to cover the cost of your site.

**You can start your site now and have it activated in minutes!**

1. Go to the CAYSA home page - <http://www.caysalansing.com/>
2. Look for the LocalReplay symbol, and click to go to the CAYSA home page on LocalReplay.
3. Use the add team wizard on that LocalReplay page to add your team's site.

Some of the features you'll enjoy:

▶ **Unlimited photos and videos**

- You can upload hundreds of photos in a matter of minutes all at one time, and our video upload wizard makes it easy to add those great video highlights.
- You can move copies of the photos and videos to your personal pages (fan pages, coach pages, and player pages) with one click of the mouse. This way you can keep the highlights from all your teams over the years on one personal web page.

▶ **Easy-to-use schedules, stats, rosters, etc.**

- Easily to post all information in a single location. You can even post written season previews, game or tournament recaps, and other articles simply by emailing them.

▶ **Integration with your current web site.**

- If you currently have a site, you can keep that web address or link to your LocalReplay site from your existing site or main school site, without having to change those sites.

▶ **Personal web pages.**

- Coaches, fans, and players can keep their profiles, stats, and highlights from all their teams over all the years on one personal page.

▶ **Safety and security**

- Contact information is never displayed.
- Personal pages can be made completely private, available only to selected individuals, or public.

**CONTACT INFORMATION**

- ▶ **Contact us anytime at 704.855.7795 or [support@localreplay.com](mailto:support@localreplay.com) with any questions, comments, or suggestions.**
